15, 20, 30, 50, 80, 100, 400, 500

Absorbent Cotton Ball

Absorbent cotton balls are soft, fluffy spheres made from natural cotton fibers, designed to soak up liquids efficiently. They are commonly used in various medical, cosmetic, and personal care applications, such as applying or removing makeup, cleaning wounds, or applying antiseptics. Their absorbent nature makes them ideal for tasks requiring gentle yet effective absorption of fluids while being gentle on the skin.

- Ideal for skin care, baby care and family needs
- It is a natural and hygienic way to remove make up and nail polish
- Made from 100% cotton
- Soft, safe and pure
- Clean cuts and scrapes.

Absorbent Cotton Silver

Absorbent cotton silver is typically made from natural cotton fibers infused or coated with silver nanoparticles or silver alginate. Like traditional cotton, absorbent cotton silver has excellent absorbency, effectively wicking away excess moisture from wounds while maintaining a moist wound environment conducive to healing.

Absorbent cotton silver is available in various sizes and formats, including pads, ropes, strips, and sheets, to accommodate different wound sizes and types.

- **Material : 100% cotton**
- **Various grades are available**
- **Suitable for medical and cosmetic use**
- **Customized requirements are accepted**
- **Soft white coloured fiber**

Absorbent Cotton Pad

Absorbent cotton pads are versatile and widely used in various medical, cosmetic, and personal care applications. Absorbent cotton pads are made from natural cotton fibers that are soft, fluffy, and highly absorbent. They are typically free from additives or chemicals, making them safe for various uses, including sensitive skin. Absorbent cotton pads are indispensable tools for a wide range of applications, offering excellent absorbency, softness, and versatility for both personal and professional use

Multi-Purpose Use: Absorbent cotton pads have a wide range of uses, including:

- **Skincare:** Applying or removing skincare products such as toner, cleanser, or moisturizer.
- **Makeup Removal:** Gentle and effective removal of makeup from the face, eyes, or nails.
- **Wound Care:** Cleaning, applying antiseptics, or dressing wounds with appropriate medical guidance.
- **First Aid:** Applying ointments, creams, or disinfectants during minor injuries or burns.
- **Nail Care:** Removing nail polish, applying nail polish remover, or cleaning nails before manicure or pedicure procedures.
